EXPERIENCE

- 02/2026 - Present **Banco del Bajío(BanBajío)**

Big Data Engineering: Responsible for the end-to-end development of high-performance web applications, leveraging Java/Spring Boot and Angular 21 within scalable Big Data architectures. I manage complex data workflows and optimize queries in Rocket UniVerse environments to ensure system efficiency and data integrity. My role involves designing and implementing RESTful APIs and modern user interfaces, integrating Angular Signals for optimized reactivity, and translating business requirements into robust technical solutions with full autonomy.

- 10/2023 - 08/2025 **Mints.cloud**

Junior Fullstack Developer: Participated in the development of the company's internal SDK using Laravel, as well as in various projects for Banco Azteca and internal initiatives. Worked with technologies such as Laravel, Ruby on Rails, MongoDB, and OpenAI (for implementing recognition systems and bots).

- 01/2023 - 04/2023 **1Delivery**

Junior developer: Development system for buying and selling services for marketing (Angular 14, TypeScript, net core 3), development of various projects in NUXT3.

- 05/2022 - 01/2023 **Jelp Delivery**

Front end developer: Development of logistics system used in pharmacies (Rome), Oxxo and others (Vue2, JavaScript, Element UI), System update in Vue3, TypeScript, Syncfusion, Bootstrap.

- 10/2021- 30/04/2022 **HITSS CONSULTING**

Developer Jr Java (Java, XML, Spring boot y RPG).

- 03/2021 - Currently **Alfa y Omega**

Volunteering in a non-profit association, social networks and creation of multimedia content (videos, posters, flyers and spots).

- 10/2020 - 02/2021 **Hmp**

Front end developer: Development of a buying and selling system for an educational software sales company (Vue2, JavaScript, ElementUI).

- 01/2020 - 07/2020 **Medibilogica**

Full stack developer: Development of a agenda and inventory control system for a clinic as a residency project (C# y SQL).
