

Michelle Espinoza

Full Stack | Big Data Engineering | Vue.js · Spring Boot

michelle.espinoza.avila@gmail.com | +52 (55) 1305 9822 | linkedin.com/in/michelle-espinoza-avila

Professional Summary

Full Stack Developer with experience in the financial, logistics, and tech sectors, specializing in Vue.js, TypeScript, Laravel, Ruby on Rails, and .NET Core. Strong background in API integrations, banking systems, frontend migrations, microservices development, and troubleshooting within highly scalable, high-performance systems.

SKILLS

Frontend: Vue, Nuxt 3, Angular, TypeScript, JavaScript, Tailwind CSS, Bootstrap, Element UI, Syncfusion

Backend: Laravel, Ruby on Rails, ASP.NET, .NET Core, Spring Boot, Django, REST APIs

DataBases & Big Data: SQL Server, MongoDB, Redis, MultiValue databases (Rocket UniVerse 14)

DevOps & Tools: Git, GitHub, GitLab, Azure DevOps, Postman, Swagger UI, Linux, Visual Studio

Languages: Spanish (Native), English (B2)

PROFESSIONAL EXPERIENCE

BanBajío — Big Data Engineer | Feb 2026 – May 2026

- **Optimized full-stack** microservices utilizing Angular and Spring Boot, improving structure and service consumption.
- **Developed** automated flows for critical data extraction and processing using Rocket UniVerse 14, ensuring data availability and consistency.

Mints.cloud — Full Stack Developer | Oct 2023 – Aug 2025

- **Led the integration of Sunshine, Zendesk, and WhatsApp** for Presta Prenda (Banco Azteca), reducing customer service response times from hours or days to mere minutes through comprehensive automation.
- **Reduced customer service agents' operational time by 40%** by programming an AI-powered bot (OpenAI) for initial request filtering and file reading.
- **Streamlined and standardized** software delivery timelines by co-designing an internal Laravel SDK, leveraging it to expedite the construction of new visual workflows for the client.

1Delivery — Full Stack Developer | Jan 2023 – Apr 2023

- **Developed landing pages** in Nuxt 3 for FinTech and CRMs using Angular 14/.NET.
- **Appointed Frontend Lead** following a rigorous external audit that recognized the exceptional quality, structure, and scalability of the developed code.

Jelp Delivery — Frontend Developer | May 2022 – Jan 2023

- **Designed** logistical interfaces for high-profile accounts such as Oxxo and Farmacias Roma, and **coordinated** the technology migration from Vue 2 to Vue 3 / TypeScript.

HITSS Consulting — Java Developer | Oct 2021 – Apr 2022

- **Maintenance and optimization** of backend services for legacy banking systems utilizing Java and Spring Boot.

HMP — Frontend Developer / Full Stack | Jan 2020 – Feb 2021

- **Developed** dynamic user interfaces in Vue 2 for an educational platform and engineered a local inventory ERP using C# and SQL Server.
